-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 29 December 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to because the lines, numbers and letters are not uniformly thick and well defined, clean durable and black (poor line quality). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Conway (United States Patent No. 2,087,181).

Conway discloses a method of putting hair foil in a person's hair comprising removing a first sheet of hair foil from a pop-up dispenser, the sheet having a lead portion and a trailing portion with the lead portion extending through the dispensing orifice and the trailing portion overlapping the lead portion of the next hair foil sheet; and pulling the next hair foil sheet through the orifice of the dispensing orifice by withdrawing the first sheet; and applying the first sheet to a person's hair (see col. 1, line 36 through col. 2, line 14). Conway discloses the claimed invention except for the foil sheets having a width of 3.5 to 6 inches. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the foil sheets 3.5 to 6 inches, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leto (United States Patent No. 4,185,753).

Leto discloses a method of putting hair foil in a person's hair comprising removing a first sheet of hair foil from a pop-up dispenser, the sheet having a lead portion and a trailing portion with the lead portion extending through the dispensing orifice and the trailing portion overlapping the lead portion of the next hair foil sheet; and pulling the next hair foil sheet

through the orifice of the dispensing orifice by withdrawing the first sheet; and applying the first sheet to a person's hair (see col. 4, lines 21-45 and figure 3). Leto discloses the claimed invention except for the foil sheets having a width of 3.5 to 6 inches. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the foil sheets 3.5 to 6 inches, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 9 and 10 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
